SUNSHINE PERIOD

Sir:

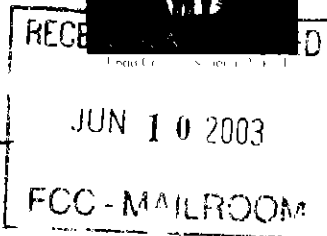

We are writing to protest your determination to further deregulate media ownership this coming June 2, 2003, without general public knowledge or debate. We commend the two dissenting commissioners, Adelstein and Copps (both democrats) for trying to warn the public. However, true to the current republican corrupt policies, by which you were appointed, we understand that you will ignore the thousands of messages that you received in going ahead with allowing yours and the administration's corporate buddies in trying to control the media and thereby the information that the general public is due to receive and it's bad enough already. We wish to remind you that the airwaves belong to the public and should you ignore the public, as you seem intent on doing, you will pay the price when the current corrupt administration is voted out of office and fall like the deck of putrid cards that all of them, including you and your cohorts are. You are as unqualified to head the FCC ~~as~~ Bush, who stole the election, is too insane to head this nation.

We oppose the proposed rule changes regarding broadcast ownership. Competition is the only way to assure that Americans are able to get all points of view. ***We demand that you hold public hearings on this crucial democratic issue!***
